SUMMER 2025

Welcome to TJC 2025 Summer Camps!

Hello, Parents!

Let's talk summer camp. The season is officially here, and if you're anything like us, you're ready for a fun-filled, action-packed summer that your camper will remember for years to come. Whether you're scrambling for a last-minute camp to fill a week or already getting ahead of the game and planning months in advance, we've got you covered.

At TJC, we take pride in offering camps that aren't just about keeping your camper busy – we're here to provide them with an exciting, safe and engaging environment where they can learn, grow and, of course, have a whole lot of fun. With a staff that's as dedicated as they come, we create a positive and welcoming space where campers can try new activities, make lasting friendships, and explore their unique interests.

We offer a wide range of camps – Athletics, Arts, Culinary, Dance, Maker, STEM, and more – so no matter what sparks your camper's interest, there's something here for them. And just to make things even better, when you register, your camper gets a stylish TJC camp T-shirt they'll actually want to wear.

Plus, we'll have a few surprises throughout the week to keep the excitement going.

We get it – you've got a lot of options out there. That's why we're so grateful you've chosen TJC for your camper's summer experience. We can't wait to see you and your camper make memories that will last a lifetime.

So, let's get this summer started!

Price includes T-shirt, camp photo and all supplies
Campers must provide their own snacks

Laser Camp

In Laser Camp, students will learn about the scientific fundamentals of laser light through instruction and hands-on activities. These laser experiments inspire cooperative team-building opportunities, focusing on the science of lasers and light, how it works, what makes it unique, and how lasers are used every day. Students will also be introduced to laser show design software and will create their own laser music show set to some of their favorite songs.

Ages 11-14

July 7-11 | Mon.-Fri. | 9 a.m.-noon

- \$120
- Meet at TJC Pirtle Technology Building, 1031 S. Palmer Ave.

Lego Films and Stop Action!

Make your LEGOs come to life! Bring in your favorite action figures or LEGOs and create a short film with your friends. Whether you want to recreate a scene from Star Wars or design a world of your own, this class brings your dreams to the screen. Students will need to bring in LEGOs and/or action figures from home, but all other equipment is provided. Student-created films will be available on a password-protected website to share with friends and family. Returning students can create more advanced projects that build on previous years. Students will work in pairs or teams for most of the program.
